

Quality Policy

We at REC shall work towards fulfilling power sector borrower's requirements by providing timely and prompt services and by mobilizing funds from various sources at lowest possible cost and strive to improve customer's satisfaction on continual basis.

We shall comply with the applicable statutory and regulatory requirements and continually improve the performance of Quality Management Systems by setting and reviewing quality objectives.

We shall also affect continual improvement in Corporation's Operations through involvement of all employees and building quality work culture at all levels.

1st August, 2008
